1. Intelligence Orientation

A. Intelligence Orientation #22 opened on 16 June with an enrollment of 36 students. More than half the group is from the DD/P, and of this number the majority are from FI/RI. With the exception of two from the DD/I the remainder of the group represent DD/S offices. Grades range from GS-4 to GS-14, with the greatest number at the GS-7 level. Approximately 90% of the group have had two or more years of service with the Agency.

B. An addition to our list of speakers is [redacted] ONE, who will give the lecture on The National Intelligence Estimate in place of [redacted]

3. Exhibits

DD Sa DDCI

A. Approximately 60 representatives of IAC agencies have requested permission to attend the Intelligence Products Exhibit on 26 June.

B. The two exhibits scheduled for next week will be the final showings until September.

4. Special Briefings

A. On Wednesday, 11 June, [redacted] gave a 3 hour briefing to Major Jones and five other ACSI representatives on "The Intelligence Community and The Organization of CIA." The request for this briefing came as a result of Major Jones' visit to the April Intelligence Products exhibit.

B. Arrangements have been made with the JOTP to conduct three hour briefings for their new EOD's as required.

5. Special Problems

We are concerned about the continuing difficulty in having films shown. The showing of the film in connection with the American Thesis briefing was effectively ruined by an inexperienced projectionist. Apparently the showing was used as a training session for the new operator.

See note above.

6. Miscellaneous Items

Some damage was done to the electrical circuits in R&S Auditorium when the building was struck by lightening last week. The p.a. system was still out of order on the first day of IO #22, but has now been repaired.
